INSTRUCTIONS FOR USE Pro-Ject Power Box MaiA

Dear music lover,

Thank you for purchasing a Pro-Ject Audio Systems Power Box MaiA.

In order to achieve maximum performance and reliability you should study these instructions for use carefully.

Warning of a hazard for the user, the unit or possible misuse

Important notice

Safety instructions

AC outlet voltages vary from country to country. Before connecting to the mains, make sure that the voltage in your area meets the voltage requirements printed on the device.

Never handle the device while your hands are wet or damp. Avoid letting liquids enter the device. Never place any item containing liquid, such as a flower vase on or near the device. Never spill any liquid on the device. Never place any naked flame sources, such as lighted candles on or near the device. The product shall not be used in damp or wet locations, next to a bathtub, sink, swimming pool or any other similar conditions.

Using the product

Power Box MaiA is designed to power **MaiA** integrated amplifier and a wide range of other DC-powered products from Pro-Ject Audio Systems.

Make all connections whilst the Power Box MaiA is **switched off or disconnected from the mains**.

Interconnection cables are included in the packaging. Original power supplies are no longer required.

In case of any doubts consult user manuals of all connected products or ask your dealer.

9V output : CD Box S, DAC Box S FL, DAC Box S USB, Media Box S, Stream Box DSnet, Bluetooth Box S.

18V output : Most of the rest of products except of power amplifiers, integrated amplifiers & receivers.

15V turntable output : All of Pro-Ject DC-powered turntables.

20V output : MaiA (alternatively also Receiver Box S, Amp Box S, Stereo Box S, Stereo Box S phono Pr)

Main power switch

The toggle switch turns the unit on or off. The blue LED above the switch shows that the unit is switched on.
